Title:

TYROSINASE INHIBITOR

Document Type and Number:

Japanese Patent JP07206669

Kind Code:

A

Abstract:

PURPOSE: To provide a tyrosinase inhibitor composed of a mixture of specified compounds, excellent in tyrosinase inhibitory activity, effective for prevention of browning of a food, carcinogenesis, aging, etc., and useful in the fields of food, cosmetics, etc.

CONSTITUTION: This inhibitor is composed of a compound of formula I, II or III. This inhibitor is a curcumin having phenolic OH and a β -diketo structure in the molecule and constituting the main component of turmeric.
